TO OUR READERS

Demand far outpaced supply for copies of our first-day coverage of the March 11 tsunami.

That's why the pages of tsunami coverage from our March 12 edition are being reprinted, with minor design modifications, in this special section produced with the help of sponsors appearing at the bottom of each page.

Additional copies of this section — as well as bundles including this section and the actual editions of March 15–19 featuring additional tsunami coverage, are available for sale at The Triplicate's front counter.

Numerous photos of the day of the tsunami and ensuing recovery efforts can be seen at triplicate.com/photos
